

THE PROJECT

AWARE cybersecurity AWAREness in VET is an Erasmus+ KA2 Project and its implementation lasts for 24 months. It aspires to address issues like:

- cyber attacks against SMEs, which are on the rise, accounting for 99.8% of all enterprises in the EU, and will continue to employ today's VET students,
- the global shortage of ICT professionals that leaves businesses and organisations at risk,
- the lack of awareness among general population about cybersecurity that leaves everybody at risk as well.

AWARE project is primarily aiming at developing didactic approaches, methodologies, and curriculum content to develop cybersecurity awareness and competencies, as stated as a priority for the VET sector.

The team for implementing workload, activities and tasks

1. Gospdarska Zbornica Slovenije (Slovenia)

2. SSRD (Slovenia)

3. Nefinia (The Netherlands)

4. Universidade De Aveiro (Portugal)

5. p-consultig.gr (Greece)

6. SOŠII (Slovakia)

7. Taste Roots Società Cooperativa (Italy)

8. Wisamar (Germany)

9. Eurosucccess (Cyprus)

THE PARTNERSHIP

PROJECT RESULTS

During the 24 months of the AWARE Project implementation, the partnership is developing the following 3 project results:

1. AWARE Knowledge Base, a training modular course providing an overview of the context of cybersecurity and its current and future relevance, covering relevant topics regarding raising awareness for digitalization and cyber security among VET learners and teachers.
2. AWARE Masterclass, a thoughtfully designed learning resource, introducing methods for safely navigating the digital world to both VET teachers and VET learners.
3. AWARE Self-assessment Kit "Cyber-Guardian", an interactive online game, testing the cyber safety and awareness of VET teachers and learners.

MEETINGS

The team is meeting regularly online to discuss and organize project activities and tasks. Three (3) Transnational Project Meetings have been held so far...

1. Hosted by Universidade de Aveiro in Portugal on 12-13 April 2022.
2. Hosted by Nefinia in the Netherlands on 03-04 November 2022.
3. Hosted by Eurosucceed in Cyprus on 25-26 April 2023.

AWARE KNOWLEDGE BASE IS AVAILABLE

The partners are really proud and happy to announce online availability of the 1st result: the AWARE Knowledge Base, a comprehensive course on cybersecurity and digital transformation in English!

We have joined forces and efforts for this project result. This course is available online via an open registration, and it comprises four (4) learning modules that provide knowledge and necessary skills for safely navigating the digital landscape with confidence. Very soon the AWARE Knowledge Base is going to be available in Slovenian, Slovakian, Dutch, Portuguese, Greek, German and Italian!

WHAT'S NEXT?

Translation & availability of the AWARE Knowledge base online course in partners' languages.

Development of the AWARE Masterclass in English.

Development of the AWARE Self-assessment Kit "CyberGuardian".

STAY TUNED FOR OUR NEXT STEPS!
